CAREER MANAGEMENT

Infographic by John Doe - January 2022

In order to reduce the educational inequalities between young people, I decided to help the association AFEV by tutoring youngsters in Toulouse.
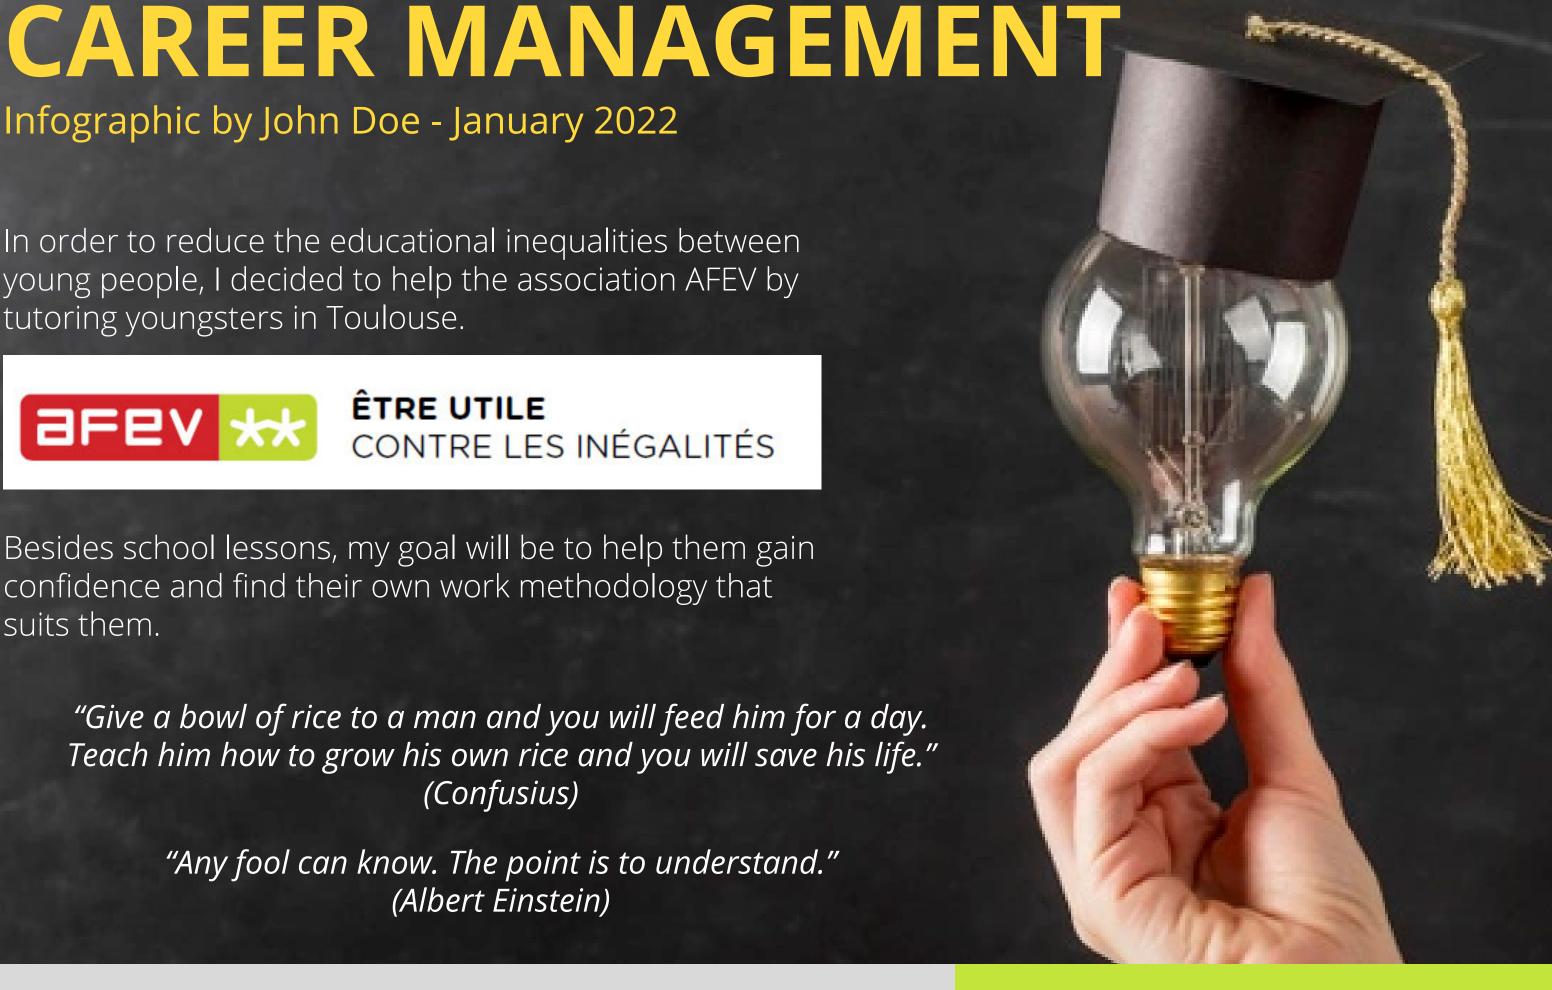

AFEV ** ÊTRE UTILE CONTRE LES INÉGALITÉS

Besides school lessons, my goal will be to help them gain confidence and find their own work methodology that suits them.

"Give a bowl of rice to a man and you will feed him for a day. Teach him how to grow his own rice and you will save his life."
(Confusius)

"Any fool can know. The point is to understand."
(Albert Einstein)

👤 PROFILE

First year student in digital sciences at ENSEEIHT, I have a scientific baccalaureate in Mathematics and I had preparatory courses in Maths-Physics-Engineering Sciences.

I decided to become a tutor at the AFEV because I have always thought that it is normal to help others in areas or skills where one has facilities. Also, my acquaintances found it incredible that I was not already a tutor when I spend so much time helping them. This was a "Eureka!" for me. I knew then where I wanted to operate in our society.

STRENGTHS
Flexible, it is multi-format.

WEAKNESS
The project's dependence on youngsters will.

OPPORTUNITIES
Meet people and stimulate another way of learning for these.

THREATS
Other learning associations and the pandemic.

United nations sustainable development objectives

4th. QUALITY EDUCATION

10th. REDUCED INEQUALITIES

Mesure of the impact of my project

- Feedbacks from my association and the students I will be supervising
- Achieved results of my students

🧠 SKILLS

Through this project, I will work on my empathy, oral communication, critical thinking, motivation, clarity and adaptability.

Found the association I will be working with

Meet the team I will be working with.
